

## The Cooked Goose COVID-19 Protocols (brief, as of June 8, 2020)

**\*\*All protocols are fluid and will change according to the guidelines the state provides**

### In general:

- All staff will wear a clean mask properly AT ALL TIMES and adhere to all social distancing guidelines as best possible.
  - Guests may only remove masks while seated at a table. Any time guests are not at the table (going to the bathroom, placing a takeout order for later, etc.), masks must be worn
- All staff will sanitize hands after EVERY interaction with a guest, and at least every 15 minutes. Hands will be thoroughly washed at least every hour.
- All people (staff and guests) will be required to take their temperature before entering the restaurant.
- All high-touch surfaces (doorknobs, handles, counters, computers, tables, menus, condiment caddies, etc.) will be cleaned AND disinfected frequently. All other surfaces will be cleaned and disinfected daily (at least).
- All staff will stand behind plexiglass when appropriate.
- The contact information of all parties who wish to enter the restaurant will be recorded in a guest book before entrance.

### Dining-In:

- All tables will be at least 6 feet apart.
- The server and ONLY the server will visit each table while guests are there to avoid an excess of interaction with other staff members (unless the party specifically requests a visit). Tables will be cleaned and sanitized after all guests leave the table.
- There will be no refills, each new beverage will be provided in a fresh glass.
- Menus will be taken from tables and immediately sanitized after use.
- Reservations are highly encouraged. Walk-ins are accepted but there is no guarantee of a table. There will be no waiting area inside the restaurant for table service

### Takeout:

- There will no longer be a coffee station with the exception of pre-packaged sugars. All to-go coffee orders will be placed with and made by the staff behind the counter.
- Counter staff will be required to wear a new pair of gloves when getting food from the case.
- No more than 8 parties may be inside the restaurant waiting to pick up or place an order for takeout at one time, and all parties must adhere to the social distancing guidelines (X's will be marked on the floor to help guide)
